SUBJECT: Procurement of Gaskets For Bottles *(Bottle - Rubber M.)*

1. It is requested that 1,000 rubber gaskets be provided to fit the bottle forwarded as attachment "A". Also attached is one rubber gasket of the type previously used for this size bottle. You will note that the gasket is slightly smaller than the inside diameter of the cap, thus the gasket falls out each time the cap is removed. Since we are using this type of bottle as a container for materials which are used repeatedly, it is necessary that the gasket be so prepared that it does not fall out.

2. We appreciate your cooperation in the last shipment of gaskets and assure you that they have proven to be extremely valuable in the shipment of materials.
